PENDANT LIGHTING

We are delighted to introduce our unique collection of pendant lighting. Our Pendants reference Britain's great industrial heritage and use colour to celebrate contemporary design. With four distinctive shapes in a number of different finishes, our lights can be used to transform an array of spaces. Our Pendants are hand spun from solid steel & finished in copper or nickel. Each light is made to order and we are more than happy to create bespoke colours and finishes if desired. *We hope that you will be inspired and illuminated by our new lighting range.*

6. METALLICS

Our Metallic Collection includes shimmering hammered copper and glossy nickel. All pendants are available in an entirely metal finish or can be coloured in complimentary greys if a more contemporary look is desired. The hammered copper finish achieves a warm dappled light and our sleek nickel pendants create beautifully unexpected reflections.
